**2008 Annual Conference**

**September 10-12, 2008  
South Seas Resort  
Captiva Island, Florida**

FSBPA will hold its Annual Meeting September 10-12 at South Seas Island Resort for the first time since 2002.

Certainly much has changed. As a result of Hurricane Charley, South Seas has been completely renovated, all rooms refurbished, new restaurants built, vegetation replanted. Truly, the resort has never been in better condition.

It will, however, be a bittersweet homecoming for FSBPA. Alison Hagerup, 20-year Administrator for the Captiva Erosion Prevention District and longtime FSBPA member, supporter and frequent member of the board, passed away June 1. This conference will be dedicated to our good friend, Alison Hagerup.

## ***Conference Highlights***

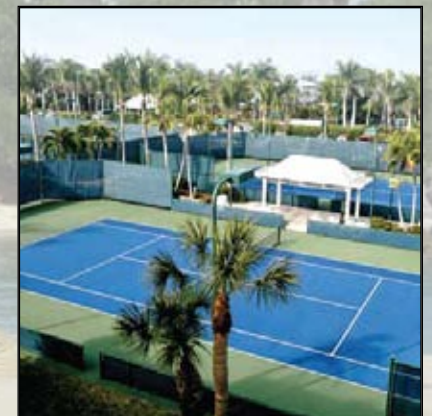

One of the hottest topics around, no pun intended, is global warming induced sea level rise. We've got several presentations on this issue, including talks by Dr. George Maul of the Florida Institute of Technology, Dr. Harold Wanless of the University of Miami, and Nicole Elko of the Pinellas County Department of Environmental Management.

Other highlights include:

- Erosion Control vs. Shoreline Armoring
- Regional Sediment Management and Sustainable Sand Sources for Beach Nourishment
- Florida Sand Sources for the Future
- Developing the Florida Beaches Habitat Conservation Plan
- The Federal Process: Working Harder and Smarter
- 2008 and Beyond: Policy and Funding Challenges for Florida's Beach Program
- Local Funding Mechanisms for Beach Projects
- Revisiting Coastal Redevelopment Practices and Policies
- Controlling Dredging Costs in a Changing Marketplace

## ***Free Golf and Tennis***

When not in session, attendees to FSBPA's 2008 Annual Meeting will enjoy free greens fees and tennis during their stay at South Seas Island Resort.

## Exhibitors/Sponsors

The FSBPA Annual Conference is absolutely the best place in the United States for exhibitors to meet and show their wares to project sponsors and decision-makers for beach and inlet navigation projects. Our past attendee list shows why:

- 86 of our 240 delegates represented local government project sponsors
- 82 different communities from 16 states were represented - each with one or more projects in mind
- the caliber of delegates was high - 31 of the 86 local officials were elected Mayors or Commissioners

City/County Officials:	86	36%
State Officials	14	6%
Federal Officials	32	13%
Coastal Engineers	66	27.5%
Property Owners/Misc.	42	17.5%
