

# COASTAL / MARINE PROJECT ENGINEER

Location: Bonita Springs, Florida

Full-Time | Immediate Opening

## Join a Firm Focused on Ecosystems, Infrastructure, and Resilience

Coastal Engineering Consultants (CEC) is seeking an experienced Coastal / Marine Engineer to join our team. This position offers the opportunity to serve as engineer in responsible charge for projects across the Gulf region.

### Our Core Services Include:

- Barrier island restoration
- Inlet and waterway management
- Living shorelines and ecosystem restoration
- Marine and waterfront structures

### Qualifications:

- Bachelor's degree in Coastal, Civil, Environmental, or Ocean Engineering
- Minimum 3 years of relevant coastal and marine engineering experience
- Eligibility to obtain Florida PE within two years
- HYPACK and AutoCAD proficiency
- Small boat operation experience
- Ability to obtain USCG Captain's License and/or SCUBA certification within one year
- Strong written and oral communication skills
- Ability to legally work in United States without support for an indefinite period of time

### Essential Duties and Responsibilities:

- Inspect seawalls, revetments, piers, docks, groins, jetties, and breakwaters
- Evaluate coastal, marine, and oceanographic processes
- Prepare engineering calculations, quantity takeoffs, technical reports, specifications, plans, construction schedules, and cost estimates
- Utilize computer-aided design and engineering software to produce construction documents and direct designers/technicians in developing plans
- Perform topographic, bathymetric, hydrographic, and geotechnical surveys
- Deploy, monitor, and retrieve current meters, tide gauges, and wave gauges.
- Manage environmental permit processes and coordinate with regulatory agencies.
- Perform construction administration and monitor construction progress

## Why Join CEC?

- Direct engagement with senior leadership
- Broad project exposure across Gulf Coast initiatives
- Strong field-to-design integration
- Mentoring and support for licensure
- Growing regional presence and advancement opportunities
- Work that directly protects and strengthens our coastal communities
